Our Global Service helps us to continuously maintain the high quality of both our products and ongoing performance that our customers have rightly come to expect.

Our Services

- Maintenance Services
- Spare Parts
- Repair
- Installation & Commissioning
- Plant Rehabilitation
- Remote Service Support
- Consultancy Services
- Operation & Maintenance Contracts
- Training

Maintenance Services

Preventive maintenance is certainly more economical than reactive maintenance. We offer a wide range of customized service packages, for all markets and industries to ensure maximum performance is achieved in terms of operating reliability and cost.

Spare Parts

Our service team in Middle East and Germany is available with advice to support you in the selection of the best original spares or wear parts for your machines. A large stock holding ensures high availability of essential spare parts of our products.

Repair

Quick response from the experts minimizes the expensive down time drastically. The highly flexible MENA-Water service team with their professional competences provides everything required to allow perfect equipment operation, whether on site or in MENA-Water facilities.

Installation & Commissioning

You can rely on our highly qualified service staff for installation and commissioning. Their expertise and extensive know-how ensures the best start for your new machines.

Plant Rehabilitation

It is sometimes more cost effective to refurbish an existing plant than invest in building the new plants. Our service specialists provide detailed technical analysis on site including a financial evaluation and will offer customized solutions. The ideal implementation of the selected solutions will be done by our qualified service technicians.

Remote Service Support

Our HUBER Remote Service Center gives worldwide technical support for local field service technicians to service HUBER Equipment with the HUBER RISE Glasses.

Consultancy Services

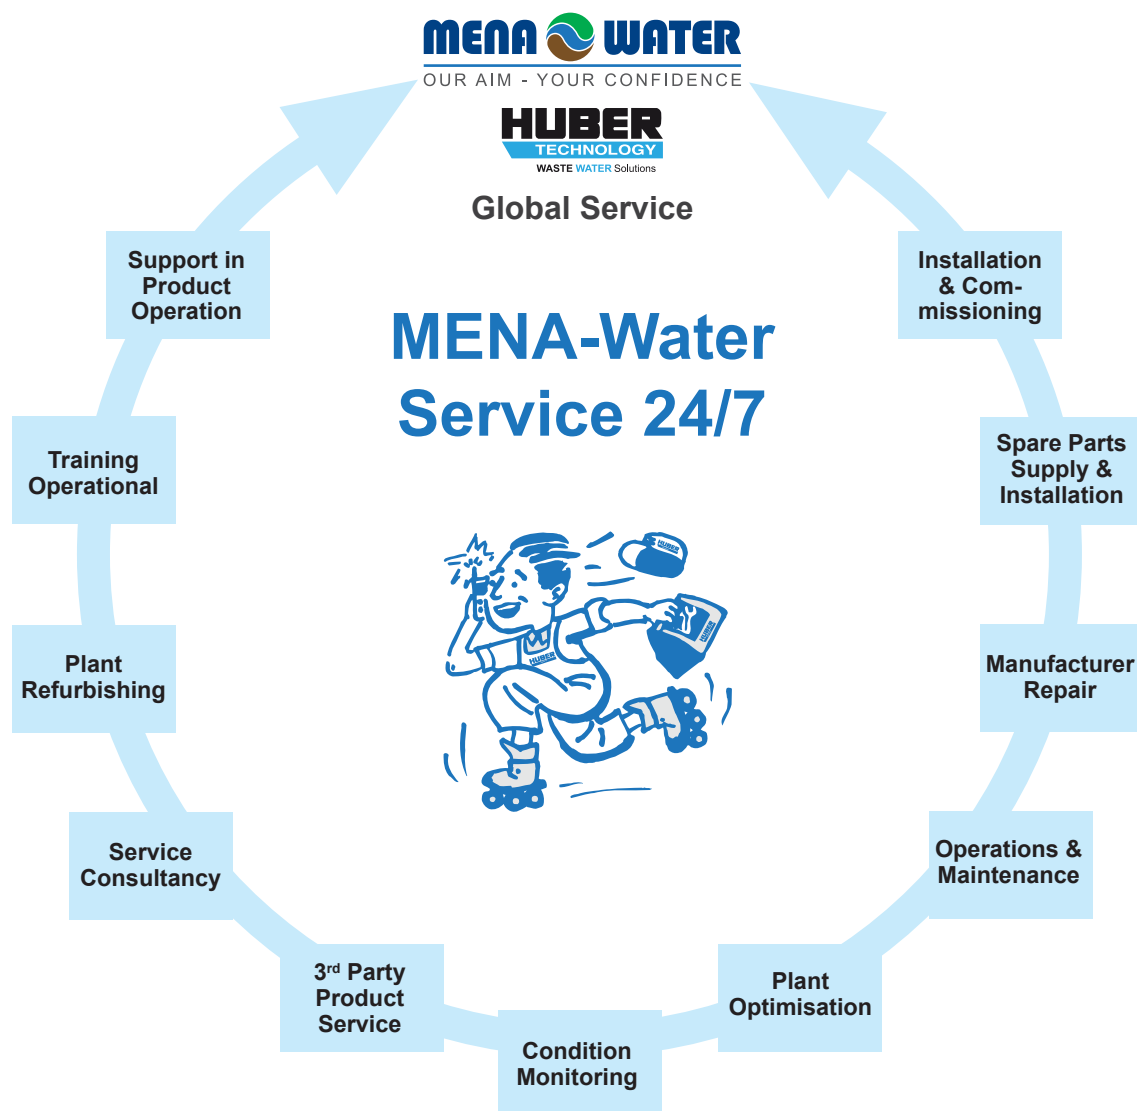

Our service consultants visit you on site to provide maximum support, including valuable information about optimal service measures and reliable operation at reduced operating costs.

Operation and Maintenance Contracts

MENA-Water is offering a wide range of operation and maintenance contracts, which are customized solutions for securing a professional operation and tailored maintenance for end users.

Training

It is very important to have a well trained staff for operating the machines, in order to avoid unnecessarily costs. Either you wish to upgrade the knowledge of your existing staff or train new employees, we offer tailor-made trainings for you either at your premises or in our Sharjah main office.
